DRM in just days.

TV operators, content providers and app developers can deploy and scale quickly with their existing vendors.
VERIMATRIX MULTI-DRM IS FULLY COMPATIBLE WITH PLAYREADY, WIDEVINE AND FAIRPLAY

It's digital rights management for every need.

TV Operators
Deploy quickly, increase your margins and protect premium content with a scalable Multi-DRM solution that operates in the cloud or on-premise.

Content Providers
Distribute content on your terms with a flexible, future-proof solution that enables seamless viewing on all devices and platforms.

App Developers
Create a secure premium playback app, reduce time-to-market and streamline maintenance while ensuring a consistent user experience.

Get Started in One Day
Dramatically reduce time to market with a studio-compliant solution that can be operational in just one day. It's pre-integrated with a wide range of partners, so you can deploy faster with a solution that works with your existing billing, packagers and application vendors.

Deliver a Frictionless User Experience Across All Devices
Unify multiple DRMs to deliver a consistent user experience across all devices and networks. This flexible solution is compatible with PlayReady, Widevine and FairPlay, so you can efficiently protect premium content no matter where it's viewed.

Scale Quickly to Meet Demand
A cloud deployment enables flexible access to solutions of any configuration and scale. Meet increasing demand without a glitch during popular live events, and only pay for what you need thanks to an elastic SaaS pricing model.

Comprehensive Client Player Bundle
With the complete client player bundle solution, developers can directly integrate Multi-DRM into mobile apps. All common platforms are supported out of the box, including Android, iOS, tvOS, HTML-5, Smart TVs and gaming consoles.
How Verimatrix Multi-DRM Works

Unified Management
Manage entitlement and access for specific geographic regions, users, and all device categories on one unified system.

Simple & Scalable
Get started quickly and only pay for what you need with our elastic SaaS pricing model that eliminates overprovisioning.

On-Prem & Cloud
Deployable on-premise or in the Verimatrix Secure Cloud, this solution meets the varying needs of legacy and migrating networks.

Multi-DRM Support
Compatible with all device types and platforms, this flexible solution empowers seamless content protection and distribution.

Invisible Watermarking
This solution ensures server-side video watermarking for OTT devices, with a client-side option for set-top boxes.

Open APIs
Leverage consistent APIs for all supported platforms and open APIs that seamlessly integrate with your existing partnerships.
Multi-DRM Client Options

Operators can choose from hardened Verimatrix downloadable or embedded DRM clients, or use native DRM clients:

<table>
<thead>
<tr>
<th>DRM Client Option</th>
<th>Native</th>
<th>Embedded</th>
<th>Downloadable</th>
</tr>
</thead>
<tbody>
<tr>
<td>Microsoft® PlayReady®</td>
<td>✔</td>
<td>✔</td>
<td>✔</td>
</tr>
<tr>
<td>Google Widevine™</td>
<td>✔</td>
<td>✔</td>
<td>✔</td>
</tr>
<tr>
<td>Verimatrix ViewRight Web</td>
<td>✔</td>
<td>✔</td>
<td>✔</td>
</tr>
<tr>
<td>Apple® Fairplay® Streaming</td>
<td>✔</td>
<td>✔</td>
<td>✔</td>
</tr>
</tbody>
</table>

Verimatrix downloadable DRM clients deploy a range of advanced code protection techniques and support screen recording detection and blocking. The embedded DRM client is MovieLabs-compliant, employing Trusted Execution Environment (TEE) and HW Root of Trust.

Verimatrix studio-approved Multi-DRM Client SDK paired with native or third-party iOS and Android media players can optionally be delivered as a single code-protected package.

Insight and Automation

Cloud-based dashboards provide operators with visibility into system performance, plus common operational metrics. Persistent (end-to-end) content encryption, policy definition and enforcement streamline multi-tiered video and security workflows.

About Verimatrix

Verimatrix (Euronext Paris: VMX) helps power the modern connected world with security made for people. We protect digital content, applications, and devices with intuitive, people-centered and frictionless security.
