Securely deliver premium content in minutes.

Welcome to the future of DRM. TV operators, content providers and app developers can deploy and scale quickly with existing vendors.

Verimatrix Streamkeeper Multi-DRM

PRODUCT BRIEF

Verimatrix Streamkeeper Multi-DRM is compatible with PlayReady, Widevine and FairPlay

A DRM system that's built to address the needs of today's video streaming providers, as they need it:

- **Get Up and Running at SaaS Speed**
- **Completely Elastic and Scalable**
- **Cost-Effective, Usage-Based Billing**
- **Feature Rich Content Protection**

Deploy a Globally Redundant System

Enhance quality of experience on every device, everywhere in the world with a globally redundant solution. Streamkeeper Multi-DRM reduces latency by delivering keys and licenses to your consumers from their closest geographic region.

Cloud Capabilities for On-Premise Operators

Streamkeeper Multi-DRM is unencumbered by legacy engineering. On-premise operators can significantly lower costs with a hybrid DRM solution that offers subscription and month-to-month billing.

Say Goodbye to Overpaying and Overprovisioning

As a cloud-native DRM solution, Streamkeeper Multi-DRM takes advantage of the latest cost-saving technologies. This means no more manual scaling or paying for services you don't use. Truly multi-tenant and elastic, this cloud service offers usage-based billing so you will no longer need to overprovision your infrastructure to prepare for large events.

DRIVING TRUST

Get Started In 3 Simple Steps

Verimatrix is routinely praised for its simplicity and scalability. In just three easy steps, an organization can be up and running, securely delivering premium content with ease:

1 Supply your native DRM certificates for onboarding

2 Receive your private keys within minutes

3 Deliver unique tokens & DRM-specific details

Easy Add-Ons for 360° Visibility

Streamkeeper Multi-DRM can be easily integrated with Verimatrix Analytics and Watermarking solutions for ultimate visibility and end-to-end protection.

Leverage client-side and server-side watermarking and an analytics platform that helps you easily uncover real-time data and historical business intelligence.

Supported Platforms and Devices

With the complete client player bundle solution, developers can directly integrate Streamkeeper Multi-DRM into mobile apps. All of the industry's most common platforms are supported out of the box.

> *"Verimatrix's service has not disappointed in even the most demanding situations.*
>
> *Whether it's during an extremely popular live sporting event or kids shows, that moment when you begin to request content is the first impression you can never re-do."*
