

Verimatrix XTD Wins Top Infosec Innovators Award for Mobile App Security

Company honored for its excellence in app shielding technology that arms developers with the proactive protections needed to repel today's attacks

Aix-en-Provence, France and San Diego, USA, November 12, 2024 – [Verimatrix](#), (Euronext Paris: VMX), the leader in powering the modern connected world with people-centered security, today announced it was named a winner of the Editor's Choice award for Mobile App Security in Cyber Defense Magazine's (CDM) [Top Infosec Innovators Awards](#).

Continually honored with industry accolades recognizing the app shielding innovations within its [Verimatrix XTD Enterprise Suite](#), the company provides some of the world's most discerning mobile app developers with the latest security technologies to consistently protect their app-centric businesses. Verimatrix XTD stands as the go-to security solution for organizations looking to proactively protect vital mobile apps from today's wide range of threats such as supply chain attacks, screen overlays, application repackaging, illicit modification or tampering, man-in-the-device attacks, and more. Its advanced obfuscation techniques as well as its threat detection and response capabilities using AI/ML, put XTD into an enterprise class like few others.

"Verimatrix embodies three major features we judges look for with the potential to become winners: understanding tomorrow's threats, today, providing a cost-effective solution and innovating in unexpected ways that can help mitigate cyber risk and get one step ahead of the next breach," said Gary S. Miliefsky, Publisher of Cyber Defense Magazine.

"We are honored that XTD received the Editor's Choice recognition in this year's CDM Top Infosec Innovators Awards program," said Asaf Ashkenazi, CEO at Verimatrix. "Verimatrix is committed to providing its mobile app customers with the latest innovations designed to powerfully protect against today's complex attacks. This award underscores the mobile app security expertise that Verimatrix offers through a team of highly dedicated engineers and experts who specialize this field."
