

Verimatrix Wins 2023 Top Infosec Innovator Award

Accolade recognizes ongoing leadership in mobile app security technology

Aix-en-Provence, France and San Diego, USA, October 31st, 2023 – [Verimatrix](#), (Euronext Paris: VMX), the leader in powering the modern connected world with people-centered security, today announced it was named a Hot Company in Mobile App Security in this year’s Top Infosec Innovator Awards organized by [Cyber Defense Magazine](#) (CDM).

The CDM honor stands as the latest industry recognition for Verimatrix [Extended Threat Defense](#) (XTD) solution that provides mobile app developers with unmatched protections. It comes as XTD was also announced as a winner of a Cybersecurity Breakthrough Award earlier this month. Detecting and responding to mobile app threats unlike any other solution, XTD cost-effectively and consistently bolsters a mobile app’s security posture and protects both enterprise and user data from falling into the wrong hands.

“Verimatrix embodies three major features we judges look for with the potential to become winners: understanding tomorrow’s threats today, providing a cost-effective solution, and innovating in unexpected ways that can help mitigate cyber risk and get one step ahead of the next breach,” said Gary S. Miliefsky, Publisher of Cyber Defense Magazine.

“XTD continues to receive praises from its growing customer base as well as industry outlets such as CDM, and it’s an honor to receive this latest accolade that reflects our commitment to serving as a leading innovator in mobile app security,” said Tom Powledge, head of the cybersecurity business at Verimatrix. “XTD remains the industry’s top choice for preventing malicious actors from accessing sensitive corporate or personal information via mobile apps.”
