

Beat the DORA Deadline: Strengthen Your Mobile Apps and Web

Are You Ready for DORA?

The Digital Operational Resilience Act (DORA) is here, and it's mandatory for a broad range of financial entities by January 17, 2025.

DORA ensures that organizations in the financial sector can protect, detect, contain, and recover from ICT-related incidents. If you operate within the EU or offer services there, compliance isn't optional—it's essential.

The Clock is Ticking!

DORA compliance will be mandatory by 2025.
Don't wait to get started.

Who Needs to Comply?

Credit institutions

Payment institutions

Investment firms

Financial market infrastructures

Third-party service providers

Why Compliance Matters

DORA's primary aim is to strengthen the operational resilience of financial entities. This means safeguarding ICT systems to ensure the continuous and reliable provision of financial services, even in the face of disruptions.

Verimatrix XTD

Your Partner in DORA Compliance

Why Verimatrix XTD?

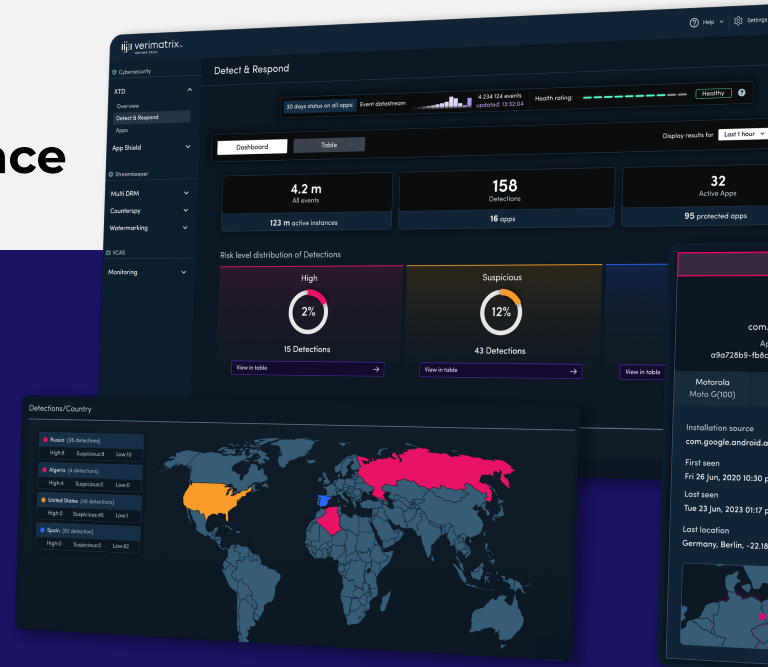

Verimatrix XTD's enterprise mobile app and web protection platform is tailored to meet DORA's rigorous standards, helping your organization:

- **Mitigate Risks:** Reduce the risks tied to ICT and cyber threats.
- **Manage Incidents Efficiently:** Streamline responses to minimize impacts.
- **Boost Resilience:** Strengthen your ability to bounce back from cyber incidents.
- **Tackle Third-Party Risks:** Monitor and manage vulnerabilities in your supply chain.
- **Enable Secure Collaboration:** Benefit from Verimatrix's insights gained from monitoring and securing a wide range of financial institutions.

Be DORA-Ready with Verimatrix XTD!

Don't leave your compliance to chance. Trust Verimatrix XTD to protect your operations, boost your resilience, and keep your organization DORA-ready.

Let's talk about your DORA strategy today!

How Verimatrix XTD Helps You Meet DORA Standards

- **Secure Implementation (OWASP):** Full coverage of OWASP standards to keep your apps secure.
- **Layered Security:** Adds an extra layer of protection to enhance resilience.
- **Achieve Certifications:** Support in obtaining necessary certifications aligned with DORA.
- **Advanced Scanning & Incident Response:** Continuous scanning and the capability to shut down compromised apps.
- **Real-Time Monitoring & Alerts:** Stay compliant with integrated monitoring and alert systems.
- **Adherence to Best Practices:** Our app protection aligns with top security guidelines.
